1969-70 Paseon
Paseo High School
Kansas City, Missouri
volume 43

Students consult with Mrs. Coleman about resource materials.

Seniors discuss family relations in a small group situation.

Secretaries-to-be keep busy in Paseo's well-equipped business lab.

Modular Scheduling comes to Paseo!

Nothing illustrates "They said it couldn't be done" better than the start of modular scheduling here at Paseo.

In January 1969, all the odds were against us making the new system work. Our student body is more than 90% black and many critics commented that blacks wouldn't respond to such a "complicated system". "The building's too old to convert into the labs, small group and large group rooms," others said.

Even the students were apprehensive. Many talked against the new type of scheduling. Students who were in favor of it were afraid the new schedule would hurt their grades and not allow enough time to complete class work.

On the morning of January 27, tension was heavy in the halls as we moved to our various homerooms. After we moved into our first classes we began a new experience and developed a new vocabulary. We learned that the resource center was a place to study, not to meet and have gab sessions with our friends. We filled our own unscheduled time with class labs of our own choice. We learned to act as adults and were treated as such. But most of all we learned that it was fun to learn.

Administration Strives for High Goals;

Mr. Isaiah Banks, vice-principal, is in his first year at Paseo. He is in charge of discipline and works closely with the students and organizations. He holds a Masters degree from Lincoln University in Iowa City.

Mr. Edgar Curtis is in his third year as principal of Paseo. He holds a Master's degree and has attended C.M. S.C., U.M.K.C., Washington University, and the University of Minnesota. Generally, his duties include maintaining order in the school and seeing that it operates smoothly.

Mr. Curtis has spent many overtime hours trying to find the best way for the modular schedule to work for the Paseo students. Before and after school usually finds him meeting with students, faculty, administrative personnel, parents, or various committees. The agenda of his meetings and his work includes ideas and solutions for making Paseo best.

Burns Midnight Oil to do so

Mr. Freddie Simpson is in his third year as vice-principal of Paseo. He received his B.A. from Lane College and his M.A. from Kansas University. Along with his disciplinary duties, he sponsors the traffic squad and keeps the school calendar in order.

Mr. Edgar Van Fleet is in his fifth year as vice-principal at Paseo. He holds an M.S. from C.M.S.C. He is in charge of student scheduling and keeps busy seeing that every student has and follows a program.

Students with problems keep office personnel busy in the Student Services Center.

Mr. Harry Klutz, assistant to the principal, holds an M.A. from U.M.K.C. In his twelfth year at Paseo, he sponsors the Student Council and Rainbow '70 as well as being in charge of teacher aides. He also teaches a humanities course during the second semester.

Goal of the Student Council; More Spirit

Row 1 - Smith, Bianca; Huddleston, Gale; Iverson, Denise. Row 2 - Furgeson, Larry; Daniels, Lloyd. Row 3 - Mr. Kluttz, sponsor

The general objective of the Student Council is to offer activities for the students while promoting school spirit. The council has done this through a chain of fund raising events - Bake sales, dances, and paper drives are just a few of the things that keep the organization busy.

Not only does the council try to promote school spirit, but it tries to give students a voice in situations that effect them. Each class is represented in the council by students of their own choice. Meetings are held with these students and the officers to settle any disputes or to make decisions about activities.

It takes a lot to be a cheerleader. And that's putting it mildly. First, it takes an awful lot of money. Then it takes determination, commitment, loyalty, and, above all, excellence on the part of the girl involved. Not only physical excellence, but scholastic excellence as well. And here at Paseo, we don't let our cheerleaders be any less than they are. Excellent.

This year's season drained hopes of victory from Pirate hearts. Although our team had the necessary talent to be a winner, they couldn't quite make that talent click on the football field. As a result we lost every football game this year except the one with Manual, which ended in a tie.

Despite the fact that we didn't have a winning record, it cannot be denied that our boys stayed in there and fought hard in every match. Along with this, they displayed outstanding character and sportsmanship.

The Junior Varsity football team came through looking very good this year. They were co-champions of the Interscholastic League. Along with very talented offensive and defensive players, the team possessed a never-say-die spirit that kept them going during the entire season. The coaches were very proud of the young bucs and, along with the school, look forward to some exciting times in future Paseo football.

In recent years Paseo has been noted for its slogan, "We try harder". And try harder we do. Not only on the court, but also in practice. This year Pirates worked from sun-up to sundown to keep Paseo in excellent position in the top ten teams in the K. C. area. For our dedicated boys it was up to the boys gym for practice before school and back to the gym after school. Not only did our boys profit in experience, but also in developing leadership characteristics. With the excellent leadership of our outstanding coaches behind them, the Bucks went a lot farther than local polls had predicted.

The Paseo Pirate Junior Varsity Basketball Team has had a tremendous rating this year. They were outstanding in the Invitational Tournament by placing first.

They topped off an exciting season by posting one of the best records of any Junior Varsity Team at Paseo. The Junior Varsity players were coached by John Paris, who showed a great enthusiasm for his players.

Although this year's track team is young and inexperienced, it is not lacking in desire and ability. Throughout the years, Paseo has been one of the smallest Class L schools in the state, yet one of the most feared and respected everywhere. The coaches, as well as teachers and students have the greatest confidence in the team. Individually, each track man wants to keep before himself our winning tradition. As a team, they are willing to give one hundred or two hundred per cent in order to win.

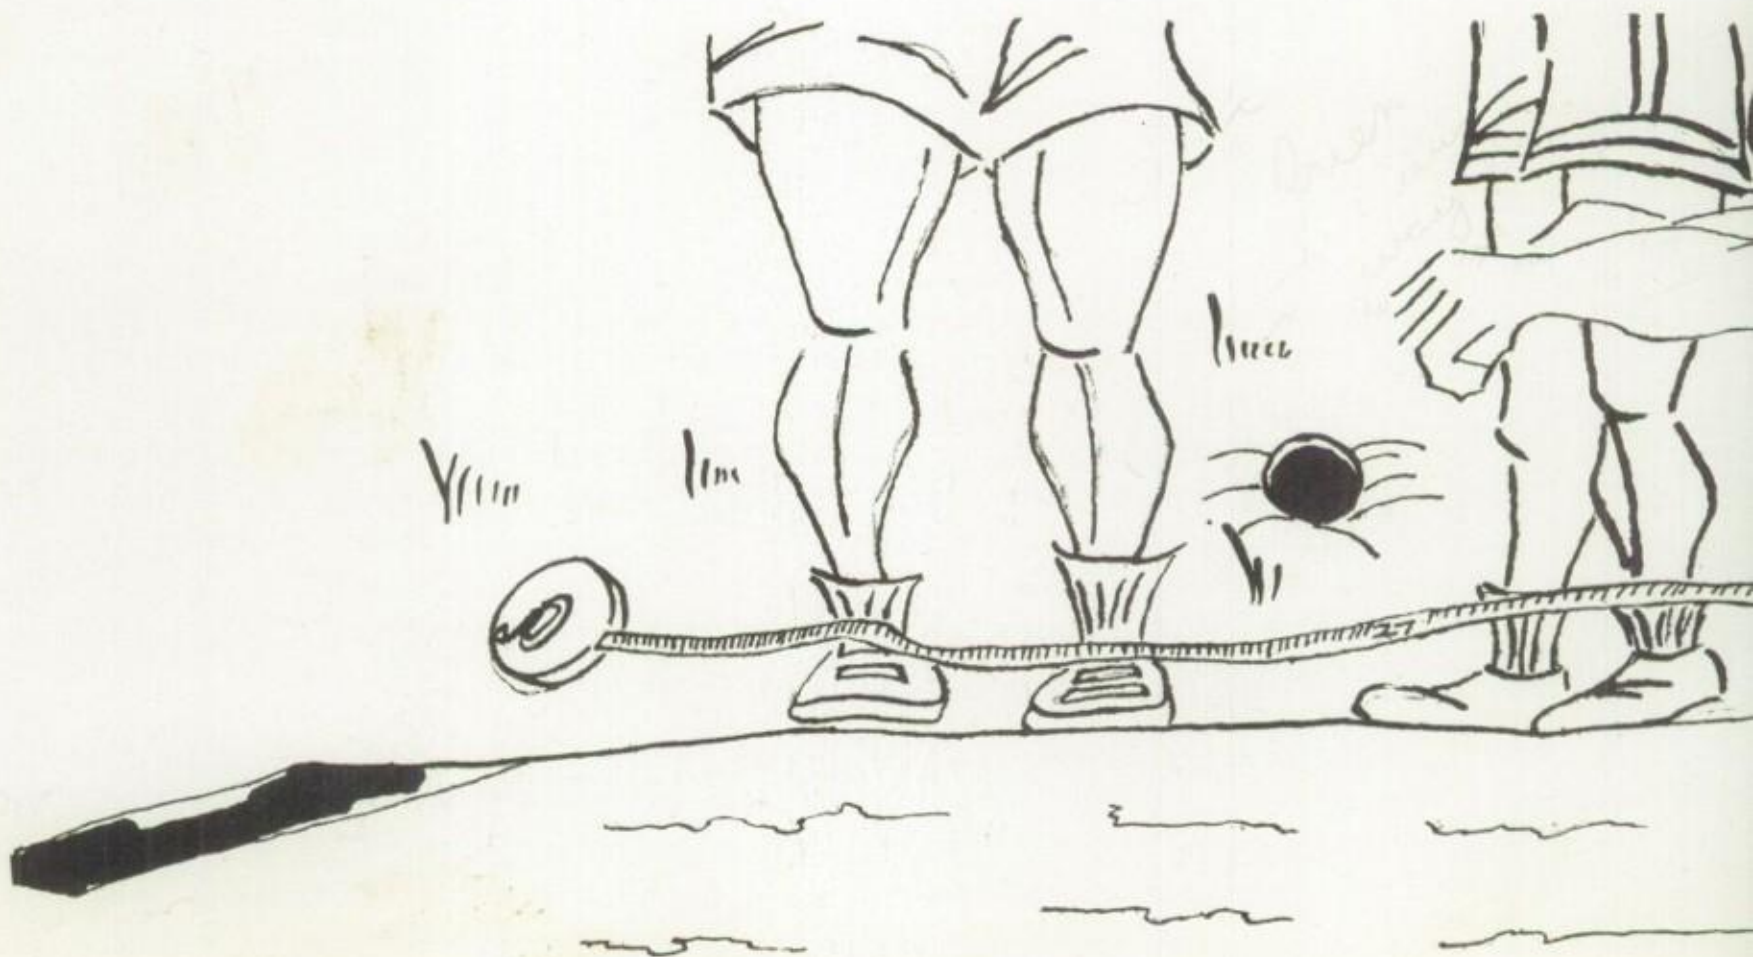

This year's team has only five returning Seniors. The remainder of the team consists of very able Juniors and promising Sophomores.

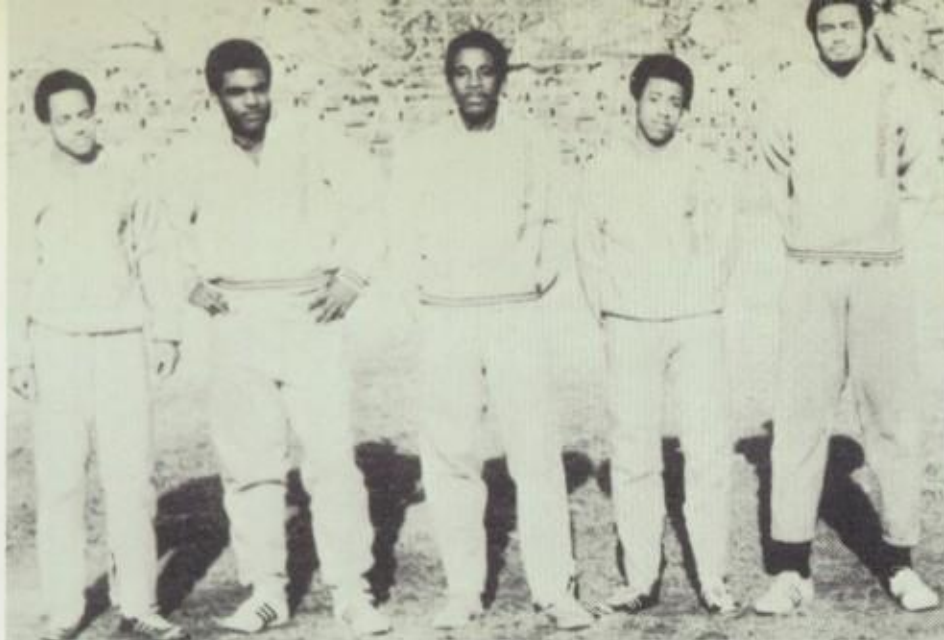

Our track team, though lacking in some areas, will provide a great deal of excitement. All in all, we have a fine looking track team this year and show much promise in years to come.

Roxane Brown Experiences A New Way of Life.

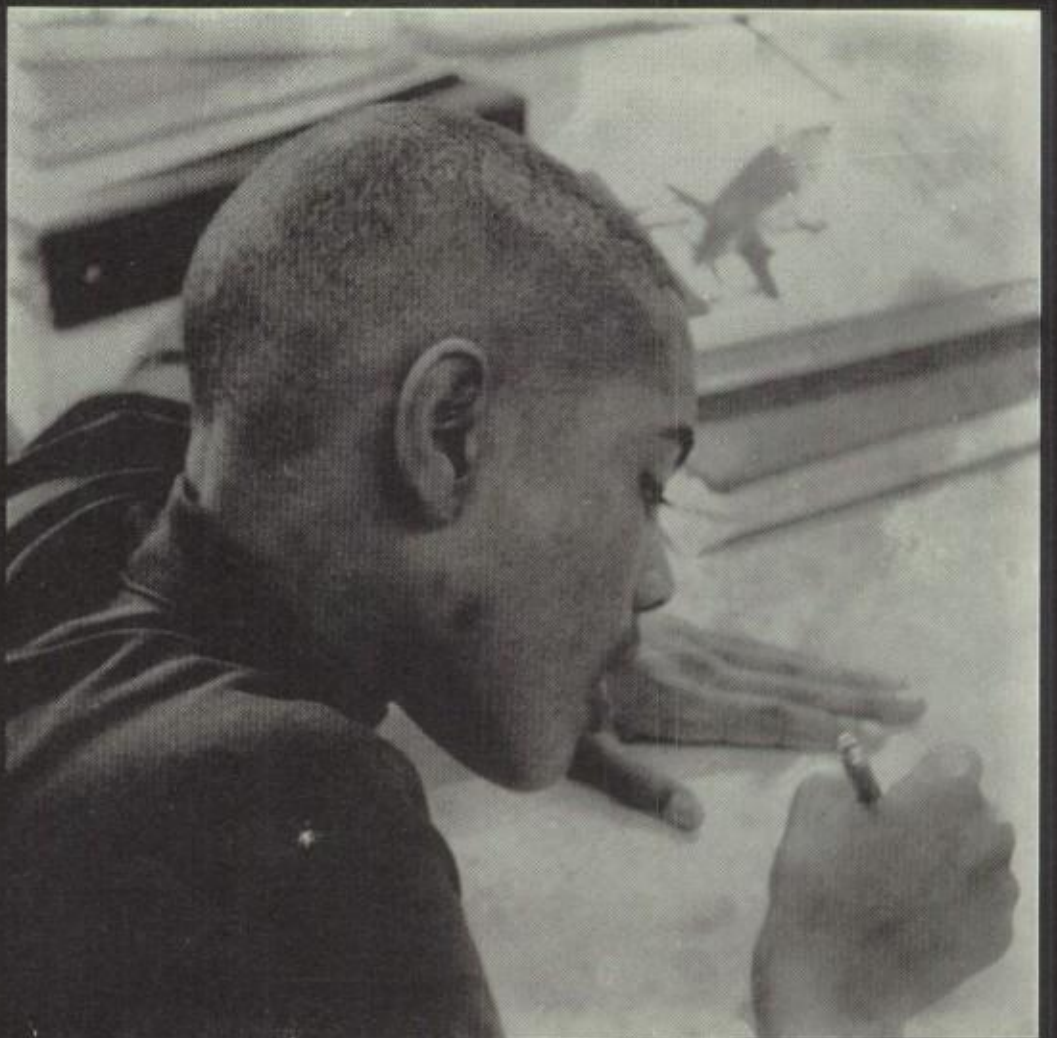

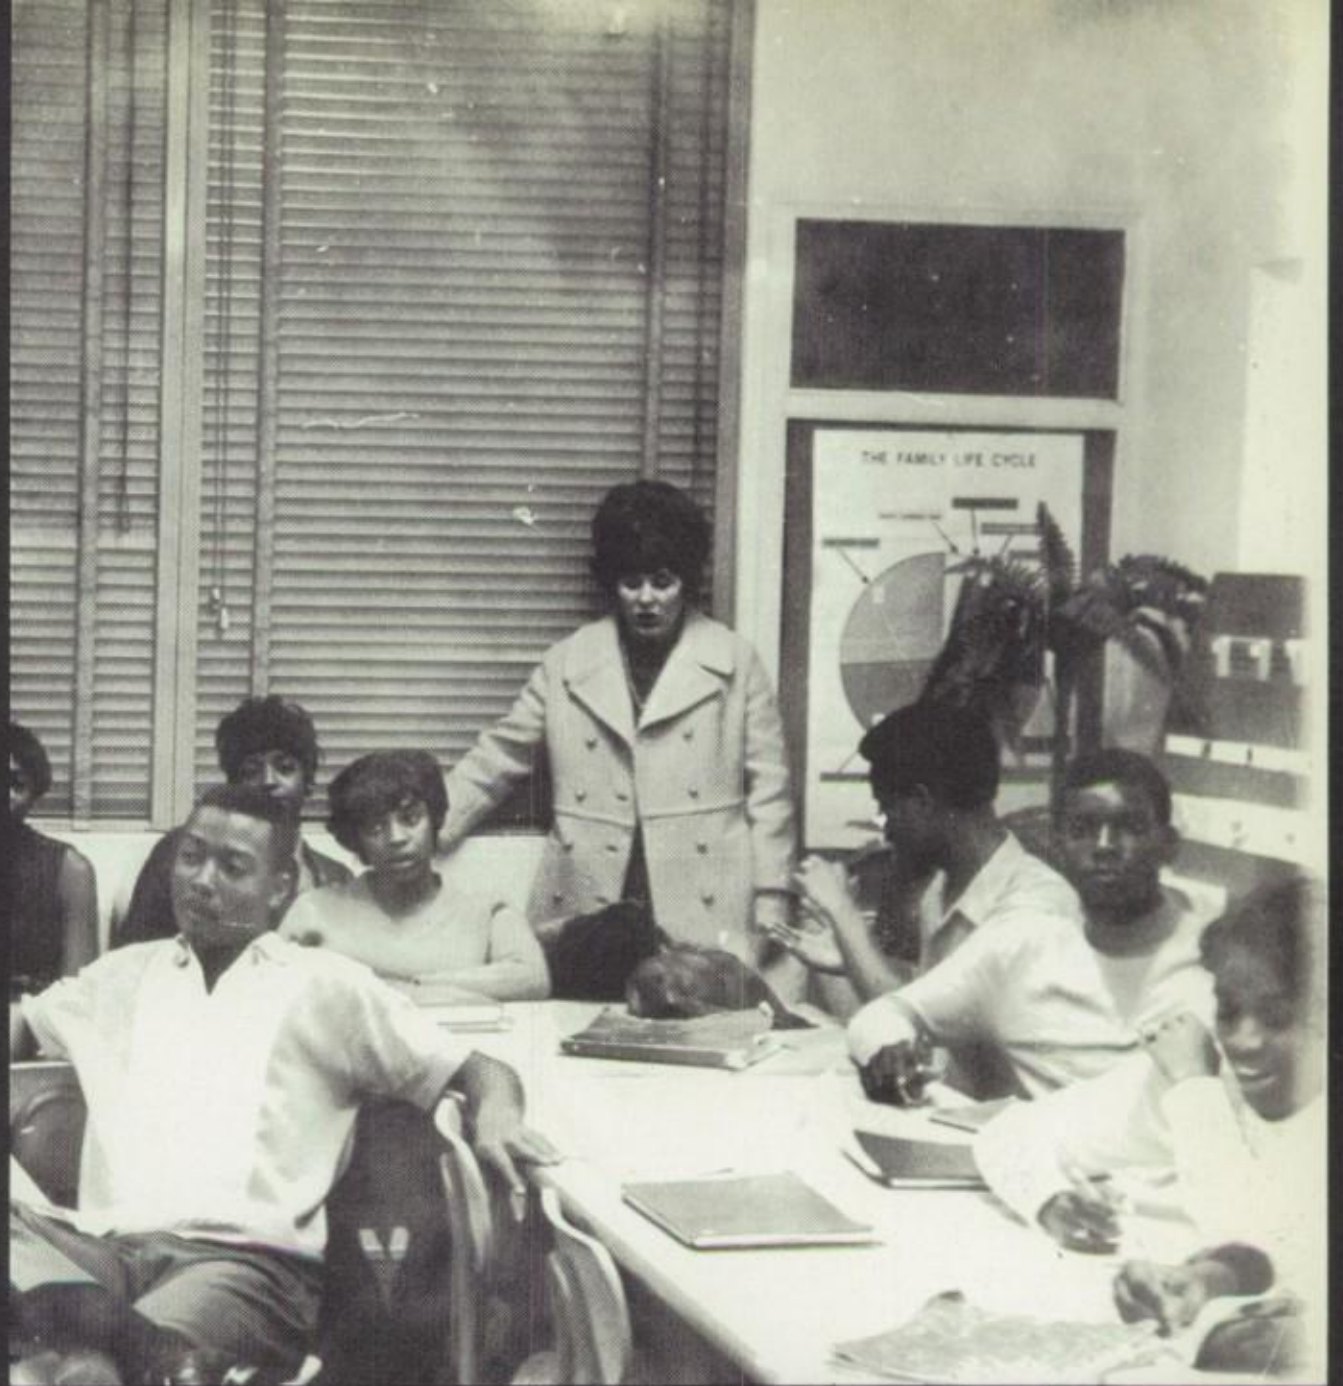

Aufgabe, aufgabe, aufgabe! (Homework, homework, homework!) This is just one of the many new words Roxanne Brown learned as an AFS student abroad this year. However it's not a new experience to Roxane, who is a Paseo graduate of 1970.

After being selected from several Paseo students by the Paseo AFS committee, Roxane's name was submitted to the national AFS chapter in New York and she was later chosen to spend this year as a member of a West German family.

No doubt, Roxane is profiting from this rewarding experience. As she said in a postcard to the editor, earlier this year: "I'm really getting the experience and education of my LIFE!"

So, Roxane, here's Paseo's special tribute to you for being a citizen of the world.

Frosh Come Through Rookie Yr. in Grand Style

James Boyd, Sharon Reed, Paula Reynolds, Gwen Watson, Camelle Ross

Boom, and the beginning of four glorious years begin. In rolled all the new freshmen faces. Throughout the years every freshmen class, including this one, was chosen as the scapegoat. They have been scorned, abused, tortured, and misused. Accusations anywhere from littering halls to disturbing classes; from cursing out administrators and faculty to half way killing other students; these fell on the rookies of the high school game. But as the days swiftly passed, freshmen began to get themselves together. Through sponsoring a sweetheart dance, a Freshmen Ball, and various other activities, they proved to the upperclassmen that they are mature individuals and will one day be capable of taking over the ship.

Class of "72" Shows Unity Early in the Game

What will they do in "72"? The Sophomores have answered this question by turning on "Sophomore Power". The class of "72" is unique as it possesses a good deal of overall togetherness. It was the swinging Sophomores who put on one of the best dances of the year. They excelled in sports by having over half of the J.V. basketball and football teams filled, and also two varsity cheerleaders on the squad. This class has ability and willingness to get a big job done.

Class of "71" Works Hard to Gain Seniority

"Jumpin' Jive, man alive, the junior class has just arrived. They're full of pep and they're full of steam. . ." This is the most accurate description of the energetic juniors. They display a care-free, happy-go-lucky outlook on life. Although they seem to see the world through rose-colored glasses, they are serious about some things and in one junior's opinion they need to "get themselves together". They are a class with many good ideas and show a strong determination to succeed.

Class President Praises Seniors

I sincerely feel the senior class of 1970 at Paseo High School is the strongest and most accomplished ever. This I feel, not because I am a part of it, but because our class has left its trademark for the following classes to see and thereby fashion themselves.

This year is a well suited climax to the enthusiasm I felt when I first entered Paseo. It all might have come by the fact that we were set off by ourselves our junior year at the Boy's Club. Surely we are the closest class to ever enter these doors. This I say without debate.

Seniors of 1970, you are the very best. I'm sure all of you will have a life full of fulfillment and success.

Gratefully,

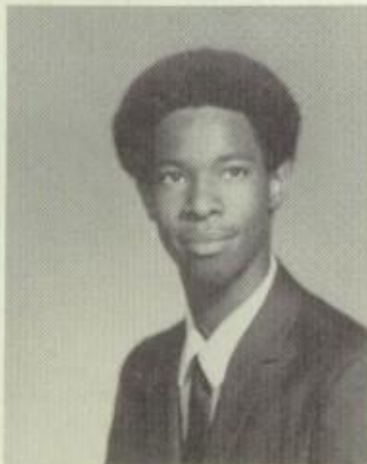

Norman Harris

Several came. . . each an individual, but sharing the same hope and eagerness. All came, ready to take on a difficult task—that of "building" a yearbook.

Not just an ordinary book, but a truly special book. And one can be safe in saying it was built from scratch.

We came looking for no reward other than to get Paseo out of the rut we were in last year. LAST YEAR WE HAD NO YEARBOOK.

The first deadline was one never to be forgotten by the new advisor, Mrs. Mendenhall, and the staff. Besides begging the student body to buy books, we were busy learning how to "paste up" and write copy. We survived.

You are now holding the finished product and we hope you enjoy it as much as we did putting it together.

Staff saves best for last

September, 1966 marked the start of a beautiful friendship between one man and several hundred inquisitive and eager freshmen students. Elaboration shall not be made on those students, but rather on that one man.

That one man, who is only one, had the patience and understanding of a thousand men. That one man made time out of no time to help some struggling soul along the way. That one man still makes time and has patience coupled with understanding even until the last minute.

And as that last minute quickly approaches, our hearts are gladdened with the thought of accomplishment, yet saddened with the thought of departure.

And just as the best part of high school, graduation, is saved for the last, we have saved the best for the last, also. For this and a thousand other reasons we dedicate this book to you, Mr. Passiglia. And we know that in coming years other students will take their places in the world as successful men and women because of you, just as our graduating class will.

The date was July 20, 1969 — the historical moment when man from planet Earth reached the first stepping stone in his exploration of space. In a spectacular climax to its Apollo space program, the United States had landed two astronauts on the surface of the Moon.

**“one small step for man.
one giant leap
for mankind.”** —Neil Armstrong

1/ Flight crew of *Apollo 11*: Commander Neil A. Armstrong, Command Module Pilot Michael Collins, Lunar Module Pilot Edwin E. Aldrin Jr.

2/ Neil Armstrong waves as the astronauts board a van that will take them to the launch complex.

3/ Lift-off! The *Apollo/Saturn V* spacecraft is on its way at 9:32 EDT the morning of July 16, 1969. A half-million spectators watched from the perimeter of Cape Kennedy Launch Complex 39A.

4/ Flight Plan: Leave Earth Wednesday morning, July 16. Arrive in lunar orbit Saturday. Touchdown and walk on Moon Sunday. Leave Monday for return flight. Splashdown Thursday in Pacific Ocean.

5/ The 363-foot high space vehicle generates a thrust of 7½ million pounds at lift-off.

6/ *Apollo 11* thunders toward orbit. In 2½ minutes, the craft was 38/55 miles high and downrange.

7/ Sunflare in camera lens seems to brighten the dark sky as *Apollo 11* orbits the Earth before translunar injection.

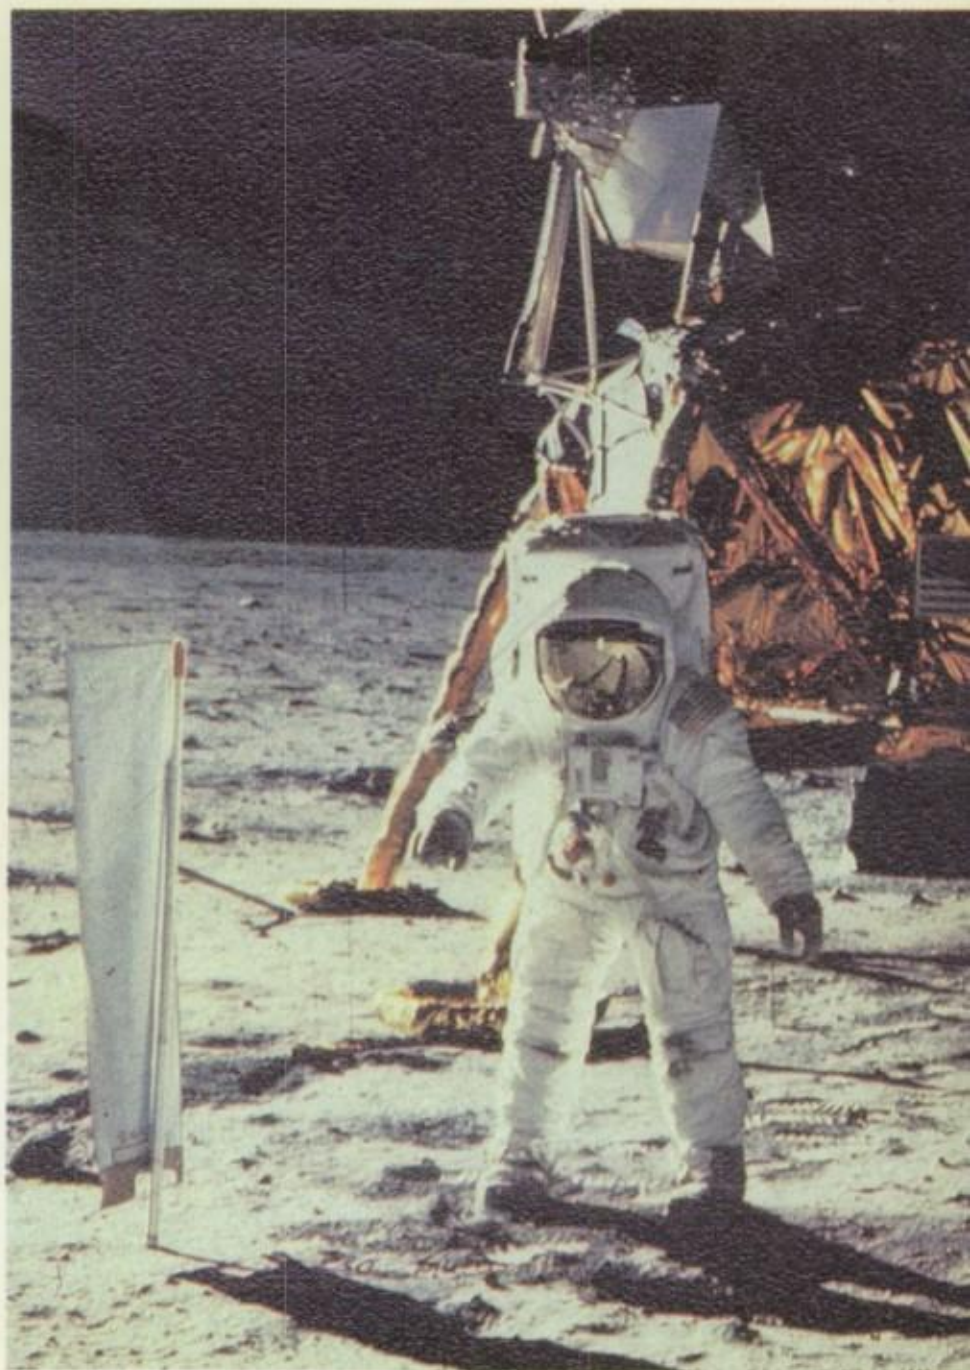

2

5

6

1/ The rising Earth greets *Apollo 11* as the astronauts come from behind the Moon after lunar insertion burn.

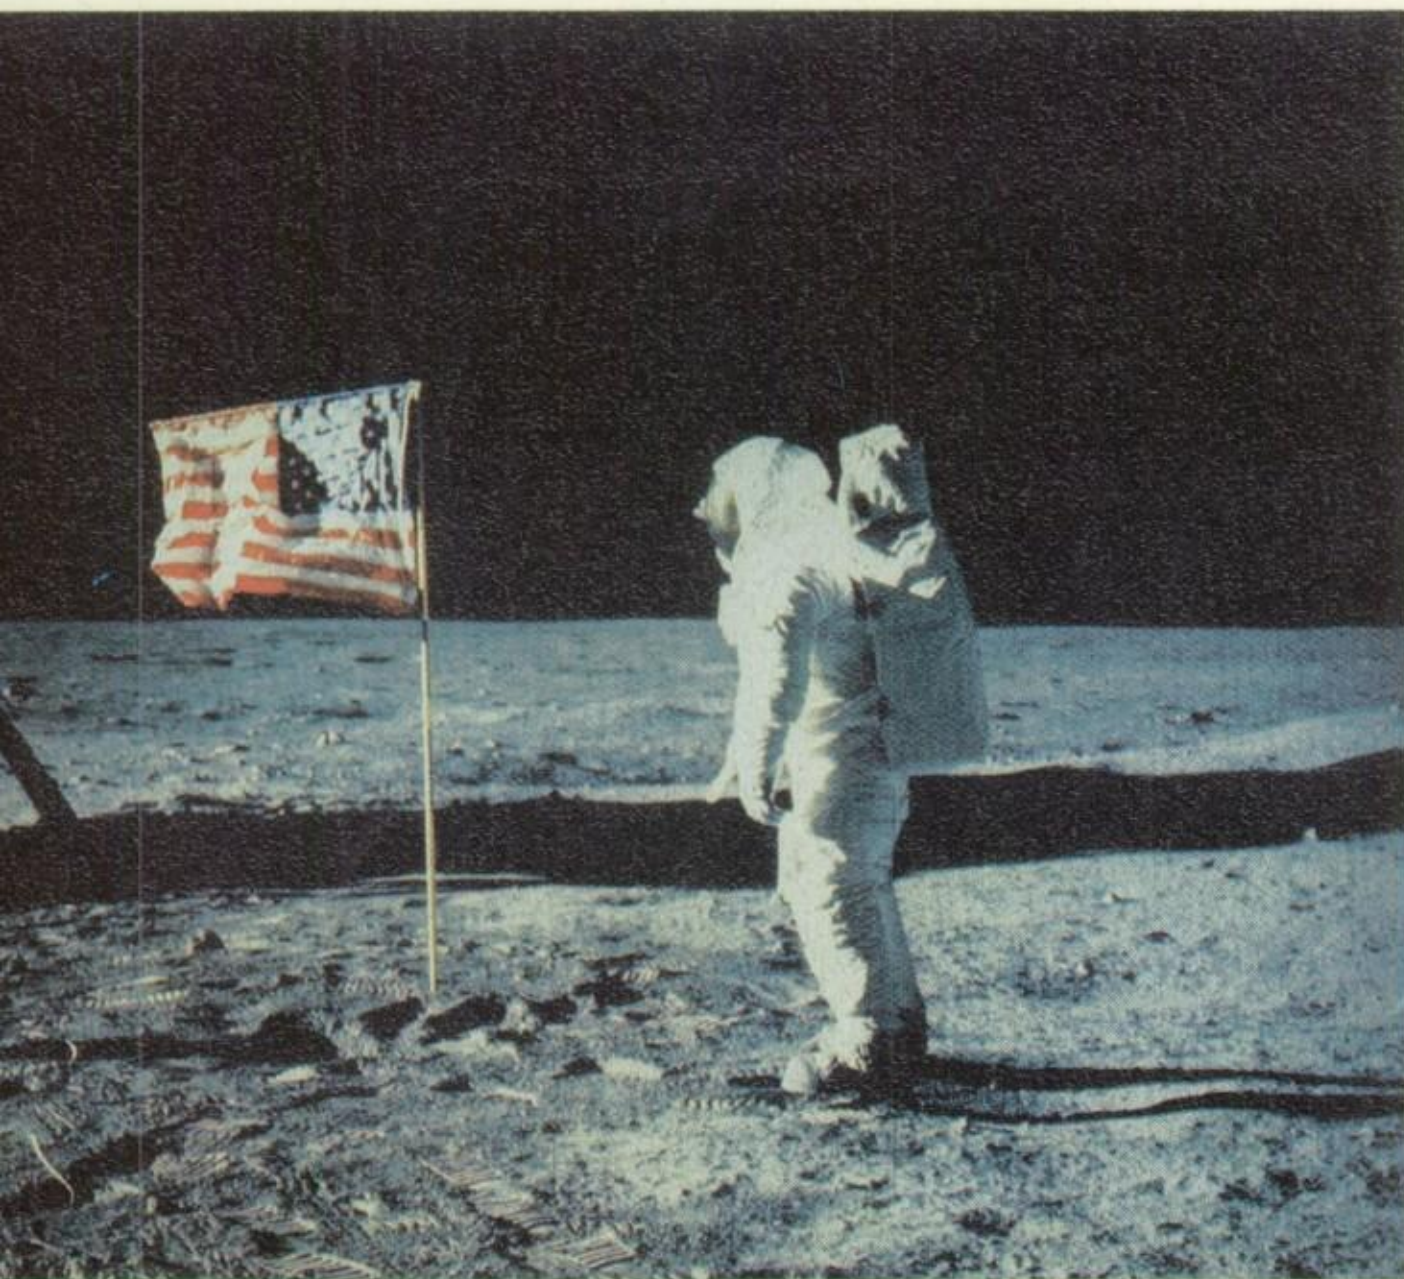

2/ Astronaut Collins took this picture from the command module *Columbia* as *Eagle* separated for descent to the Moon with Armstrong and Aldrin aboard.

3/ Large central crater is identified as International Astronomical Union 308, on the far side of the Moon.

4/ Crater and terrain features photographed near the landing site on the Sea of Tranquility.

5/ Aldrin descends ladder of the LM to join Armstrong for a walk on the Moon. Here their weight was only a sixth of what it is on Earth.

6/ Television viewers on Earth were enthralled as the astronauts went through a checklist of lunar chores. Armstrong and Aldrin spent 22 hours on the Moon, including 2½ hours outside the LM.

2

3

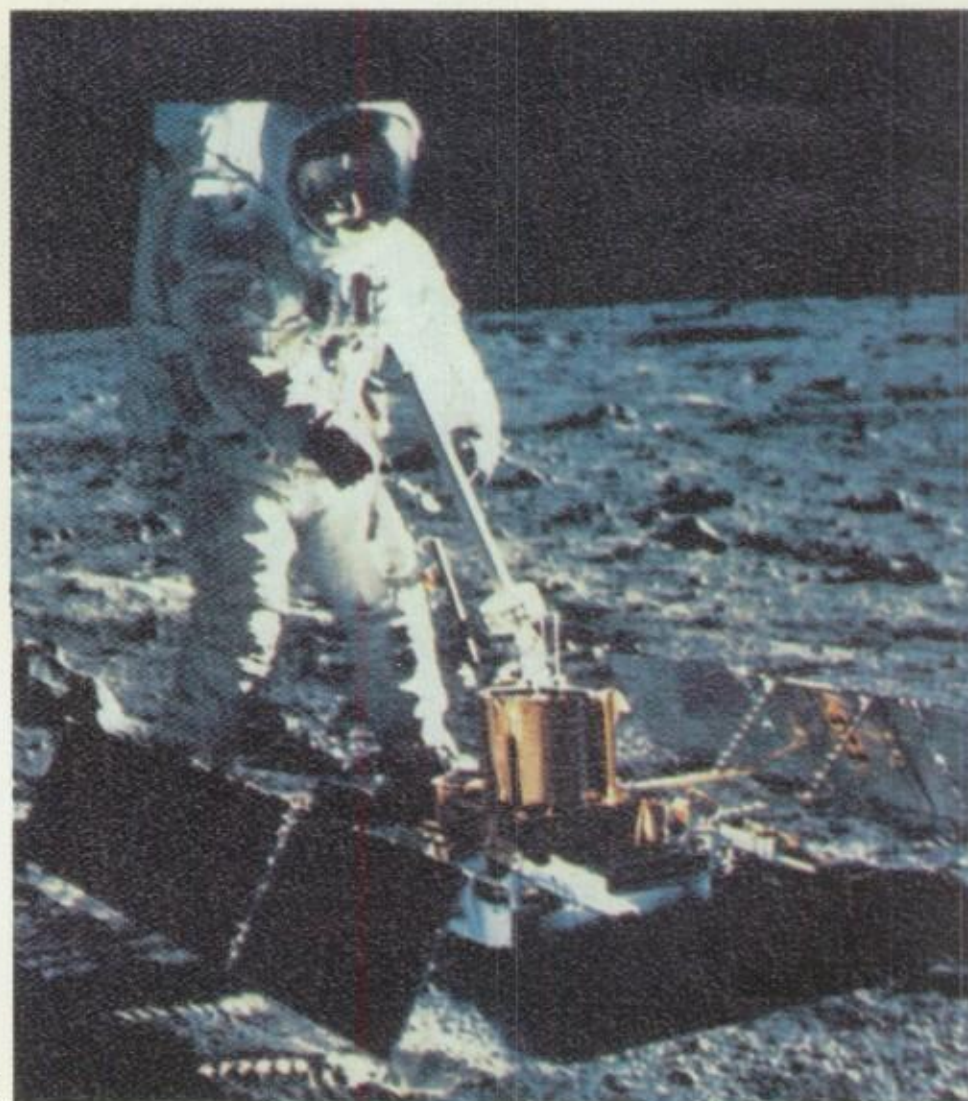

4

1/ Salute to the American Flag by Edwin Aldrin. Because there is no atmosphere, the flag is unfurled by an L-staff.

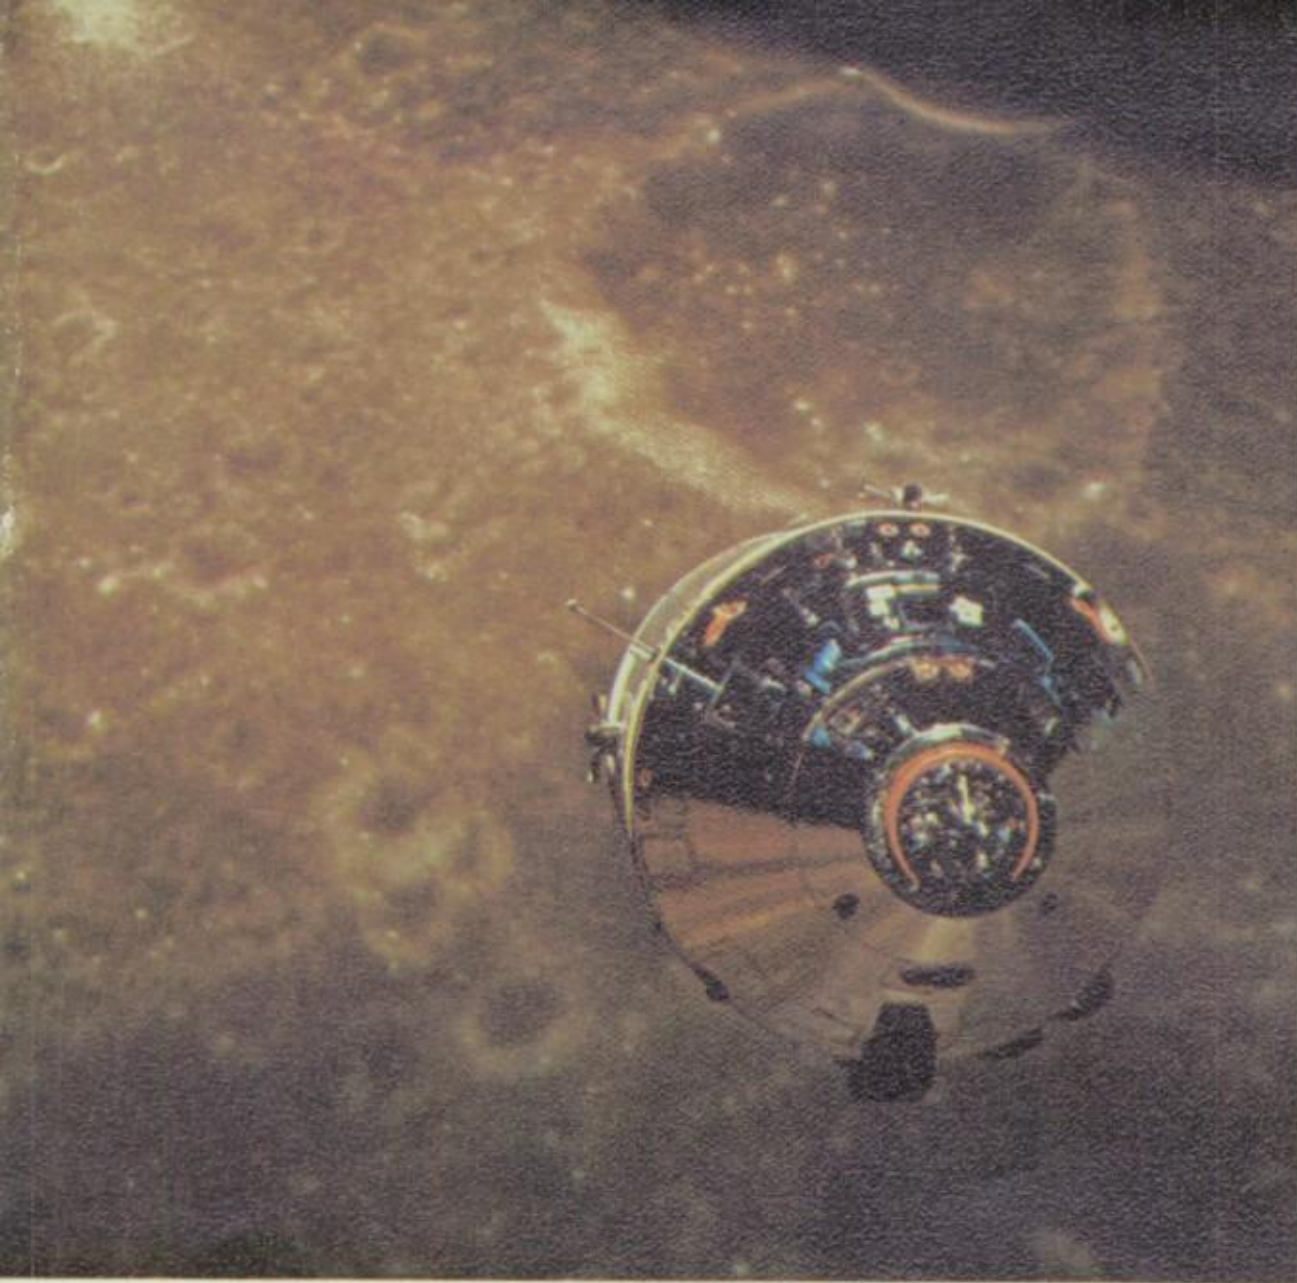

2-3/ Now there are footprints in the powdery crust where no man ever had walked before.

4/ Close-up of a 3-inch area of the surface shows a clump of lunar powder and shiny spherical particles.

5/ Devices will transmit data on seismic activity and solar winds. A laser reflector has given scientists the first accurate distance to the Moon.

5

7

8

6/ A look back as the astronauts lift off from the Moon aboard *Eagle* to rendezvous with the command module.

7-8/ Inside the command module *Columbia*, Astronaut Michael Collins prepares to dock with *Eagle*. After Armstrong and Aldrin are aboard, the LM is jettisoned and transearth injection is made for the return voyage.

9/ Ablative material burns from *Apollo 11* as it plunges back into the Earth's atmosphere over the Pacific Ocean.

10/ A recovery helicopter hovers to pick up the astronauts. Splashdown was July 24.

1/ President Richard Nixon and the astronauts in their quarantine capsule listen to prayer by the *USS Hornet* chaplain.

2/ New York showers welcome to the three astronauts in what was the city's largest parade in history.

... A journey of a thousand miles begins with one step.
